

Còmplices de la Creació with FiraTàrrega

Territori Creatiu (Creative Territory) is a space for accompaniment, research, innovation and coproduction for stage creation processes. It also covers professional training, in all of which FiraTàrrega makes its expertise and knowledge of the performing arts, street arts and public space available to creators and professionals.

Within Territori Creatiu, the ***Còmplices de la Creació (Accomplices of Creation)*** programme is designed to generate alliances and synergies with other organisations and installations, so that stage projects can benefit from the best conditions in their creative process and launch into the national and international market.
