

# CREATIVE RESIDENCIES

SERVICES, OPERATION, LOGISTICS AND INFRASTRUCTURES

FiraTàrrega wants to give maximum support to artists who have chosen the public space, offering entertainment designed for open spaces as well as unconventional spaces. Support to enable them to create in the best conditions and to enjoy advisory and logistical, technical and promotional support. We want to be a space that hosts company residencies, promoting creation among emerging artists, driving training focused on artistic creation and the creation of strategic alliances to develop circuits or the transnational production of street art.

## SERVICES

The services that FiraTàrrega offers are structured according to the planning, production and operation of an artistic creation.

### PLANNING

Support for the comprehensive planning of the residency: this service is embodied in a global assessment (budgetary, administrative, artistic, technical, etc.) and prior to the residence itself.

### PRODUCTION

**FiraTàrrega** will provide a free rehearsal place in accordance of the infrastructure of the city.

### OPERATION

Operation for the resulting production, embodied in the organization of open rehearsals, presentation of the performing arts market, possibilities for opening in a national and international circuit, possibility of participation in the FiraTàrrega Market, support in communication and media, etc.

## OPERATION

FiraTàrrega provides to the companies its infrastructures between March and August. Interested companies must submit an artistic residency project to **FiraTàrrega**, containing the following sections:

- An artistic proposal.
- A residence technical file: the number of people, specific needs of the rehearsal space, proposed dates of residence, planning phase of the residence, any open rehearsals, etc.

If the project is viable, **FiraTàrrega** will reserve the dates and coordinate the residence together with the company.

## Conditions of the residence

- Companies will have a maximum period of 3 weeks between the months of March and August to perform the residence.
- The company will offer an open rehearsal of its show in creation to the public of Tàrrega.
- Rehearsals at the final location of the piece will be negotiated with the organization (schedules, materials, permits, etc.).
- The company will sign a contract with FiraTàrrega before the start of the residence.

### FiraTàrrega is not responsible for:

- Production technical file
- Company expenses
- Transport to Tàrrega
- Internal transport
- Perishables

### FiraTàrrega is responsible for:

- Transfer and consumption of the infrastructure
- Lodging for the company
- Advice (budget, artistic, technical, promotional, etc.)
- Coordination of the creation's open rehearsal

## INFRASTRUCTURES AND LOGISTICS
